While files from the Internet can be useful, this file type can potentially harm your computer. Only run software from publishers you trust. <u>What's the risk?</u>					

On the Welcome Screen, select Next

On the License Agreement Screen, select "I accept the terms in the license agreement", then Next

On the Custom Setup Screen, select Next

On the Ready to Install Screen, select Install

On the User Account Control Screen, select Yes

On the Windows Security Screen, check "always trust software from Nortel Networks" box, then select Install

On the Installation Complete screen, select Finished

REBOOT the PC. This isn't technically required, but is HIGHLY recommended

From the Desktop , double click the Icon " Nortel VPN Client"
